TWENTY-FIRST ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF THE

HALIFAX SCHOOL FOR THE BLIND.

The Board of Managers have much pleasure in submitting to the Members of the Corporation, and to those interested in the education of the Blind, the Twenty-first Annual Report of the School, and, as in previous years, they acknowledge with gratitude the many blessings poured out upon their work by a kind and over ruling Providence.

Since the first opening of the Institution, in August, 1871, the School has received many benefactions, and the work in which we are engaged has aroused the interest of a large circle of intelligent and benevolent persons, but no event during the history of the School has been of such marked importance as that of the completion and occupation of the new wing. This new building has been fully described in a previous report, but your Board feel it to be their duty to place on record their appreciation of the manner in which the contract was carried out by Mr. S. A. Marshall and his sub-contractors. The supervision of the work had been placed in the hands of Mr. J. C. Dumaresq, who had prepared the plans and specifications for the new wing, and your Board believe that the architectural beauty of the building is a standing testimony to the skill of the architect. The substantial character of the work and the care which has been taken by Mr. Marshall to carry out every detail of his contract are not only satisfactory to your Board but most creditable to the contractor. The hot water heating apparatus, which was put in by Macdonald & Co., has proved very satisfactory, and the guarantee of the firm has been verified in every particular. The completion of this new building

enabled your Board to extend the privileges of the School to an increased number of pupils, and the addition to our numbers during the present year proves conclusively that it would have been a grave mistake to have postponed the enlargement of our accomodation to a later date than that at which it was undertaken.

The Board of Managers have noted with pleasure that the Provinces of New Brunswick, Prince Edward Island, and Newfoundland, are co-operating with the Province of Nova Scotia in the maintenance of one central Institution for the education of the Blind, and your Board have endeavored by every means in their power to make this School a Maritime Provincial Institution. Nearly 50 per cent. of the pupils are from the first three Provinces named and in order that the Governments of these Provinces might have a voice in the control of the School, and be in a position to look after their respective pupils, the Premiers of New Brunswick, Prince Edward Island and Newfoundland, have been made ex-officio members of the Board. This official recognition of the several Provincial Governments has been carried out by your Board with a view to securing intelligent interest of united action, believing that such would be of great service to the Blind throughout the Maritime Provinces.

Act II. of the Constitution has been altered so that persons contributing the sum of twenty-five dollars towards the funds of the Institution become life members of the Association. The same article of the Constitution provides that the payment of five hundred dollars at one time shall constitute a patron of the Association. This bye-law should, we believe, be altered so as to be more in keeping with the present status of the School, the word *patron* should, in our opinion, be changed to that of *benefactor*, and under the heading benefactors should be a list of the names of all those who have given by bequest, or who have donated while living, the sum of five hundred dollars or upwards towards the funds of the Institution. The last might also properly include such persons as have served as members of the Board of Managers for a period of ten years. Were this change made the names of such benefactors as Wm. Murdock, Hon. M. B. Almon, Enos Collins, Sir Fenwick Williams, W. P. West, John King, A. Sheilds, Jas. A. Buist, Mrs. G. Binney, Sir W. Young and J. P. Mott, none of whom have contributed less than $500 towards the funds of the Institution, would be preserved in

a permanent form, while the able and zealous services of such tried friends of the School as the late Geo. P. Mitchell and John S. Maclean, who took such an active interest in the work of educating the Blind would receive a suitable recognition.

The Superintendent's report deals fully with the several departments of the School, and in each of these good and satisfactory work has been accomplished. The teachers are zealous and painstaking and that they have the interests of their pupils at heart is quite evident to those who have visited the Institution and witnessed the routine of daily work in the School, music and work rooms. The steward and matron, Mr. and Mrs. R. T. Blair, have found that the increased accommodation has brought with it increased domestic duties and your Board have cheerfully added to the domestic staff, having a due regard to the funds at their command.

We have several times expressed our appreciation of the kindly thought of Mrs. Blair for the pupils who needed careful nursing, and during the past year it gave us great pleasure to present her with a suitable testimony as a recognition of the same. The Board had also great pleasure on the same occasion in presenting to Dr. A. W. H. Lindsay a testimonial of their great appreciation of his valuable services for many years past. The thanks of the Managers are hereby tendered to Drs. Lindsay, Dodge, Kirkpatrick and Oggswell for their kindly attention to the pupils. To the Committee of the Y. M. C. A. and to H. B. Clarke, Lessee of the Academy of Music, for tickets to entertainments. To the railway, steamship and coach proprietors for privileges granted to the pupils.

The Managers refer once more to the zeal, energy and wisdom of the Superintendent, C. F. Fraser, to whose administrative ability and abiding faith in the work, the great advance made in almost every department during the last year is largely due.

In September, 1888, Miss E. J. Hunter entered on her duties as a teacher of literature in the School. Her many valuable qualities, both of head and heart, soon proved not only of great advantage to those especially under her care, but endeared her to all that came in contact with her. In June last the Board lost her services. At a little later date our Superintendent found God's first gift to man, a good wife. The Board never performed a more pleasing and satisfactory

duty, than in showing the deep interest they felt in this interesting event. They presented two statues in bronze of considerable merit, representing Labor and Art, as a slight mark of the high esteem in which the Superintendent and Mrs. Fraser are held. This remembrance will be a souvenir for many years to come, of the close and happy relations existing between the Board, Mr. Fraser and his esteemed wife.

W. C. SILVER,
President.

SUPERINTENDENT'S REPORT.

To the President and Board of Directors of the Halifax School for the Blind.

GENTLEMEN :—

The table of attendance herewith submitted shows that 43 blind persons have been under instruction during the past year, 29 of whom were males, and 14 females: 3 of these have since graduated or left the School, and one has been removed by death, making the total attendance on Dec. 1st, 1891, 39; of whom 28 are males and 11 females. Of these 20 are from the Province of Nova Scotia, 14 from New Brunswick, 1 from Prince Edward Island and 4 from Newfoundland.

LITERARY DEPARTMENT.

The increase in the number of pupils has enabled the literary department of the School to be graded more effectively than it has been in former years.

The advantages of the kindergarten training to our younger pupils suggested the advisability of a still further introduction of this system, and at the commencement of the present term Miss Carrie Bowman, who had acted as substitute during the absence of other teachers, and who had enjoyed special advantages in the Kindergarten School for the Blind of Boston, was engaged as one of our teaching staff, and her work bears promise of being in every way satisfactory. Owing to the resignation of Miss E. J. Hunter which took effect in June last, it was thought advisable to fill the vacancy by employing a literary teacher from New Brunswick, and accordingly the services of Miss J. E. G. Roberts, of Frederic-

ton, N. B., were secured. The literary attainments of Miss Roberts are well known throughout Canada, and as her zeal is fully equal to her acquirements, the outcome of her work cannot fail to prove advantageous to those placed under her tuition.

The better grading of the School has made it possible to place Mr. Fletcher in charge of all the mathematical classes, for which special work he has shown marked ability. With this trio of specialists we have a staff of teachers eminently adapted to carry forward the work successfully.

The mathematical, the literary and mechanical branches of study are each under the direction of a teacher who has special qualifications for the work, and the blind of the Maritime Provinces have now within their reach greater educational advantages than ever before. The hours in the Schoolroom are from 8 a. m. to 1 p. m. daily, with ten minute recesses at regular intervals. The enlarged school room accommodation consequent upon the occupation of the new building has been fully utilized and it is evident that without this accommodation an increase in numbers and a more complete grading of the School would have been quite out of the question.

MUSICAL DEPARTMENT.

In previous reports reference has been made to the lack of proper accommodation for our musical department, but in erecting the new building care was taken to provide for this long felt want. A comfortable Assembly Hall, capable of seating 300 persons, with stage seating for pupils, is now daily occupied for band and singing class practices, calisthenics for our girls, and other general purposes, and for all public gatherings in connection with the School. The Assembly Hall, which has in it a fine upright cabinet grand Bell piano, lately purchased from W. H. Johnson, has been used on several occasions by Miss Louise Lane and other musicians when invited to sing or play for the pupils, and as hearing good music is an important consideration to the students of music the School has been greatly benefitted by having a suitable hall for such performances. The band of the Institution as well as the choir of the School, which have been under the able instruction of Mr. A. M. Chisholm, have made excellent progress, and among the more advanced pupils several are being prepared to take positions as band and choir masters. In

addition to the assembly hall the new wing contains six small piano practice rooms each of which is comfortably heated. Owing to long and constant use the practice pianos belonging to the School were in a very unsatisfactory condition, and it became evident that in order that the pupils might reap the full benefit of their instruction the pianos would have to be disposed of and new ones purchased or hired. The latter course having been decided upon a contract was entered into with Miller Brothers who have already put in two fine Karn and four Evans pianos which have proved a delight alike to teacher and taught. The adoption of the policy of hiring the pianos for the use of the School will in the long run prove more economical than the outright purchase of instruments, to say nothing of the advantages to the pupils in having first-class instruments upon which to practice.

Mr. A. M. Chisholm, who has charge of the musical department is a musical zealot, and through him the pupils are inspired to attain that degree of excellence as performers and teachers as will enable them when graduates to earn their own livelihood, and when this is accomplished in any department of the Institution one of the most important objects of the School is secured. Mr. D. M. Reid, who is well and favorably known in Halifax as a pianoforte tuner, has six young men under his instruction whom he is preparing for his own profession. If any testimony were needed as to the thoroughness of Mr. Reid's work it might be found in the fact that offers have been received from Montreal for the employment of two graduates from the tuning department of the School. As all of our graduates were otherwise profitably engaged neither of these offers was accepted, but it is encouraging to note the steady growth of confidence in the work that can be done by trained blind persons.

THE WORK DEPARTMENT.

In the girls' work department very excellent progress has been made, and the work class which assembles for two hours each day is regarded by the pupils as a pleasant pastime. The teacher, Miss Bella Bowman, fully appreciates the work she has in hand; and whether it be the little one who for the first time assays the task of stringing beads upon a brass wire, or the young lady engaged in following out an intricate pattern of fancy work, she is alike ready to be more than ordinarily patient or to give such intelligent instructions as will

direct the fingers aright. The younger boys receive daily instruction in the use of ordinary carpenters' tools, and the precision with which some of them work proves that sight is not always required in order to strike the nail on the head. From this junior workshop the boys are advanced to the tuning department or the general workshop in which instruction is given in the manufacture of a variety of willow baskets and other articles and in the cane seating of chairs. This department is under the management of Mr. D. A. Baird, who like Messrs Fletcher, Chisholm and Reid, is one of our own graduates.

HEALTH.

While for the past three months the health of the pupils has in the main been satisfactory, the trying experience of the winter of 1890 will long be remembered in the School.

Early in the School year La Grippe made its appearance among the pupils, and throughout the entire term case after case of this epidemic followed closely upon each other. One sweet little girl, named Grace Aiton, whose parents reside in Hartland, N. B., succumbed to the effects of the disease and in the month of March her sorrowing parents carried her remains to her home, bearing with them the sympathy of many friends within the walls of the Institution. One case of diphtheria and one of scarlet fever made their appearance, but these being promptly removed to the infectious hospital and the premises being thoroughly fumigated, no cases followed. In this connection I would like to add to the testimony already made by the Board of Managers my appreciation of the skill and thoughtful attention of Dr. Lindsay and the untiring attention of the matron, Mrs. Blair. While this record is not what we might desire, it is a satisfaction to note that, barring epidemics, the pupils have enjoyed good average health. We recognize fully that physical training to the blind is of paramount importance, and that mental culture is given to little purpose when no consideration is bestowed upon the development of the body. Our pupils, girls and boys, are systematically trained in the gymnasium, are encouraged to take long and brisk walks in the open air, are supplied with an abundance of nutritious food, have ample time for sleep and are trained to be regular in their habits; but even with these precautions there are among our pupils many who suffer from the neglect of early childhood, and as this report will reach

the parents of children as yet too young to enter the School, it might be well to remind them that serious weakness of constitution has often resulted from allowing blind children to remain seated day in and day out in the chimney corner, and that if the best interests of the child are regarded, daily exercise in the open air will be practiced.

FREE EDUCATION OF THE BLIND.

The Halifax School for the Blind is an Institution for the education of the blind of the Maritime Provinces. Within its walls are to be found pupils from the Provinces of Nova Scotia, New Brunswick, Prince Edward Island and Newfoundland.

The Institution itself is controlled by a Board of Managers elected annually by the members of the corporation, and of this Board the Premiers of the Provinces named are ex-officio members. In the Province of Nova Scotia an act has been passed making education free to all blind persons between the ages of 10 and 21. In the Provinces of New Brunswick, Prince Edward Island and Newfoundland the legislatures make annual appropriations for the tuition of their respective pupils amounting to $150 per pupil. This sum is the same as that paid for the pupils from Nova Scotia. It will be seen from the foregoing that pupils from the other Provinces are admitted to all privileges of the School upon the same terms as those from Nova Scotia, and that with those from Nova Scotia they share in all the benefits of our endowment, buildings and equipment. Up to the present time these Provinces have provided for all the pupils that were under instruction in the School, but as their number increases it is to be hoped that legislation will be enacted which will enable the youthful blind to enjoy the advantages of the School upon the ground of their birthright to a free education.

In the meantime the lack of adequate Provincial finances and a wrong idea of economy may induce one or more of the Governments of these Provinces to limit the number of those for whose tuition grants are made; but it cannot be long before the justice and right of giving to those deprived of sight the fullest opportunities for a free education will outweigh all other considerations. Each boy and girl in New Brunswick, Prince Edward Island and Newfoundland is entitled by his or her birthright to a free education, and it would be a

reproach upon the intelligence of the legislators in our sister Provinces if being deprived of sight should prevent or limit the education of those who cannot see. This is not a question of expediency or charity, but simply a question of even-handed justice. Nova Scotia has set a brilliant example in acknowledging by a solemn act of parliament that the free education of the blind is only the fitting complement of her Public School system. New Brunswick, Prince Edward Island and Newfoundland have dealt liberally with those deprived of sight, but they will not have done their whole duty until they place the education of the blind upon the same footing as of those blessed with sight.

GENERAL MATTERS.

The erection, opening and occupation of our new building has been one of the most important events in the history of the Institution since its formation, and it is a source of very great satisfaction to all those interested in the Blind to note the very generous support given by the Legislature and public towards the construction of the new wing. When, two years since, it was found that unless increased accomodation could be obtained some of those applying for admission would have to be denied the privileges of an education, your Board readily seconded the proposal to immediately set about raising funds towards the erection of a new wing. Early in June, 1890, the corner stone was laid, and on May 11th, 1891, the building was formally opened by His Honor Lieut-Governor Daly at an inaugural reception and in the presence of a large and influential audience. The cost of the building with hot water heating apparatus, furniture and fixings complete is $15,954, and of this sum $13 510 have already been paid or subscribed, leaving a balance of $2,444 yet to be paid off. This very satisfactory result is due first to the liberality of the Legislature of Nova Scotia: second, to the legacies of those interested in the education of the Blind; and third, to the generous hearted donations of those who are ever ready to aid a progressive and deserving Institution. No words can express the gratitude of those who have the interests of the blind at heart; let it suffice that many blind children who might have been forced to remain at home and eat the bread of idleness, have by the erection of this building been enabled to enjoy the full privileges of a free education, and will

before many years roll round be able to go forth into the world as useful men and women, prepared to take their places side by side with those who can see, and in common with them fight nobly for self-maintenance and mayhap for a fortune. I trust during the present year to wipe off the debt upon the building; and in so trusting I am depending largely upon the promises of many friends being practically fulfilled. In closing I beg to thank the Board of Managers on behalf of Mrs. Fraser and myself for their kind remembrance and earnest good wishes, and on behalf of myself for the broad minded and liberal support which has been extended to me during my superintendentship.

All of which is respectfully submitted.

C. F. FRASER.

ACKNOWLEDGMENTS.

Building Fund, Halifax School for the Blind.

The Board of Managers and Superintendent of the Halifax School for the Blind gratefully acknowledge the following liberal contributions towards the building fund of the Institution. They also acknowledge with thanks the labors of the many ladies and gentlemen who have so cheerfully rendered assistance in obtaining and collecting subscriptions towards this fund, to whose energy and zeal is mainly due the success of the undertaking. Owing to incomplete returns, and in some instances to the work of collecting having been postponed, some of our enterprising towns and villages are not represented in this report; but it is hoped that when the next annual report is published a supplementary list of acknowledgments will be made public such as will reflect credit upon the liberality of the citizens of many towns and villages in the provinces of Nova Scotia, New Brunswick, Prince Edward Island and Newfoundland. A little over two thousand dollars is yet required to pay off the debt upon the new building, and if the towns not herein represented contribute as liberally as have the citizens of the towns herewith acknowledged, this debt will speedily vanish and the work of educating the blind be thus materially advanced.

HALIFAX, N. S. $2,961.50.
